

February 27, 1976

sheriff to recruit these individuals. There are training standards provided, all the other things we have mentioned on this floor on repeated occasions ranging from workmen's comp solutions, to minimum pay of \$1 per year, to coverage for hospital or injury, if they are injured on work, to standards regulating the use of weapons. I repeat, the bill creates a new law enforcement body called Reserve Officers. The old use of deputies is eliminated. They don't exist anymore. All we have is a new category. I believe every single police officer and sheriff in the state is satisfied with the bill. Mayor Zorinsky, for example, came and testified at great length on the bill. He wants it. I know of no opposition to the bill with the possible exception of anybody in the body and I think most of their problems have been resolved relative to the bill.

PRESIDENT: Senator Kime.

SENATOR KIME: Mr. Chairman and members of this body, this bill has been debated here back and forth for hours. I think everybody knows the contents. It is a bill that is created by the peace officers of the state for the use of the peace officers of the state and I don't see any need of further debate. I move that the bill be advanced.

CLERK: Mr. President, motion on the desk. Mr. President, I move to amend LB 782: Read amendment. See page 837, Journal. Signed Senator Chambers.

SENATOR CHAMBERS: Mr. Chairman and members of the Legislature, I have talked to a number of people who are in favor of this bill about this particular provision and I have discussed it when my bill was being killed. The effect of this section 8 is to say that everybody who currently is a special deputy, whatever they want to call them, will not have to take the training that has been brought to your attention in terms of this bill. The problems that exist with reference to these forces have been caused by the people who currently serve in this capacity. So if you do not strike section 8, you are saying that with all of the conversation that occurs about training, the bulk of these people are not going to have to take this training. This particular provision I intend to strike, as it was amended by the Judiciary Committee, will say that anybody who served in this capacity as of 1972, January 1st, will not have to take any training. If this is designed to be a training bill, everybody should have to be trained. If this provision of the bill is stricken, then it will be a better bill at that point.

PRESIDENT: Senator DeCamp.

SENATOR DeCAMP: Senator Chambers, if we agree to strike this particular section, can you, then, not necessarily support but refrain from opposing the bill?

SENATOR CHAMBERS: Just one other, which you probably can't agree on, and this is not to kill the bill but it
